

Security

- External doors with multipoint security locking system, letter plate security hood and door chain
- High performance and energy saving UPVC windows with locking system
- External lights to front and rear with PIR sensors

Environmental details

- Energy efficient and thermostatically controlled gas central heating and A-Rated boiler to minimise usage
- Double-glazed PVC windows
- Dual flush mechanisms to toilets to reduce water use
- Insulation within roof spaces and external wall cavities to limit heat loss in the winter and reduce heat gain in the summer
- Low energy lighting throughout

- Photovoltaic panels to provide a renewable source of energy and reduce utility bills to the homeowner
- Highly insulated timber frame, which contributes to lower energy bills than older, less efficient properties

Considerate Contractor

Highwood Homes is a considerate constructor, which means we are committed to recycling significant amounts of waste materials and packaging from our homes to reduce the environmental impact of the development.

Management company

Management services are provided by Trinity Residential Property Care, which was founded in 1999 and has a management portfolio of over 900 developments nationwide. Trinity is a member of ARMA (the Association of Residential Managing Agents).
